

# Project Quotation Proposal

**Ref No:** PAC/QUO/2025/08-001

**Subject:** Proposal for the Development of a Multi-Service Delivery Ecosystem (MVP)

**Issue Date:** 25/08/2025

## Project Goal

ProAppCoder Technologies is pleased to present this proposal for designing and developing a complete multi-service delivery ecosystem for beachgoers, including vendors, delivery captains, and users.

## Scope of Work

A. User App with Ordering, Payments, Tracking  
B. Vendor Panel with Product Management  
C. Delivery Captain App for Pickup & Delivery Flow  
D. Admin Panel with full control  
E. UI/UX Design + Backend API + Database

## Tech Stack

Component	Technology
User App (iOS/Android)	Flutter
Admin & Vendor Panels	React.js
Delivery Captain App	Kotlin / Native Android
Backend API	Node.js + Express.js
Database	MongoDB
UI/UX Design	Figma

## Cost Breakdown

Module	Technology	Cost
UI/UX Design	Figma	60000
User App (Android + iOS)	Flutter	180000
Vendor Panel	React.js	90000
Admin Panel	React.js	90000
Delivery Captain App	Kotlin	80000
Backend API Development	Node.js + MongoDB	100000

## Project Investment

**Total:** ₹600000
